DETAILED ACTION

1. Claims 10-21 are presented for examination. Claims 1-9 are canceled.
2. Newly submitted claims 10-21 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The newly submitted claims contains separate utility such as in a PLMN, an arrangement for avoiding transmitting redundant messages in the network comprising mobile end station, base stations having cells for connecting with end station and receiving updates and receiving data from the worker processors into an administrative processor.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 10-21 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,
